1. PRODUCT AND COMPANY IDENTIFICATION

Product Name          Crystal Cut 777
Product Code          667
Chemical Family       Synthetic Fluid
Material Uses         Metalworking Fluid Concentrate
Manufacturer          Hangsterfer's Laboratories, Inc.
                      175 Ogden Road
                      Mantua, NJ 08051
                      Phone 856-468-0216
                      Fax 856-468-0200
Emergency Telephone Number
                      Chemtrec 1-800-424-9300 in US
                      Canutec 1-613-996-6666 in Canada
                      For international assistance, dial Chemtrec US number 703-527-3887

2. HAZARDS IDENTIFICATION

Acute Health Effects

Skin                  Concentrate may cause skin irritation. Diluted metalworking fluid is not expected to be a primary skin irritant. Repeated or prolonged skin contact may cause allergic reactions with susceptible persons.
Eye                   May cause irritation. Diluted metalworking fluid may cause weak and transient irritation.
Inhalation            Not expected to present a hazard under normal use conditions.
Ingestion             Ingestion is not considered a likely route of exposure. Ingestion may result in minor gastrointestinal discomfort.

HMIS                  NFPA
Health Hazard         2 1
Fire Hazard           1 1
Reactivity            0 0

Chronic Health Effects
No information available.

Carcinogenic Effects
Information on individual ingredients which may have carcinogenic effects, if any, will be found in Section 11 and 15.
Aggravated Medical Conditions
No information available.

Miscellaneous Hazards
Water diluted metalworking fluid must be monitored according to industry standards for maintenance of metalworking fluid. Microbiological condition of fluid must be monitored. Uncontrolled microbiological growth has been associated with health complaints in the workplace. Overexposure to metalworking mist may cause respiratory irritation. Avoid prolonged and/or repeated contact with skin. Prolonged and/or repeated contact with this material may produce mild skin irritation or inflammation.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

**Hazardous Components**

</tbody>
</table>

If any of the components of this product are defined as hazardous by OSHA Hazard Communication Standard 1910.1200 and are present at 1% or more (0.1% or more for carcinogens) they will be listed in this section. If no components appear in this section, no components of the product meet or exceed the reporting requirements. OSHA PELs and ACGIH TLVs refer to the concentration in air of the specific chemical as measured by specific analytical methods.

### 4. FIRST AID MEASURES

**Eye Contact**
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, consult a specialist.

**Skin Contact**
Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes.

**Inhalation**
Move to fresh air. Consult a physician if necessary.

**Ingestion**
Do not induce vomiting. Drink plenty of water. Consult a physician if necessary.

### 5. FIRE-FIGHTING MEASURES

**Flammable Properties**
Material may burn but does not ignite readily.

**Suitable Extinguishing Media**
Water spray or fog, dry chemical, carbon dioxide (CO2) or foam. Cool containers with flooding quantities of water until well after fire is out.

**Unsuitable Extinguishing Media**
Do not use a solid water stream as it may scatter and spread fire.

**Hazardous Combustion Products**
Carbon dioxide (CO2), Carbon monoxide, Oxides of nitrogen.

**Specific Hazards Arising from the Chemical**
May be ignited by heat, sparks or flames. Keep product and empty container away from heat and sources of ignition.

**Protective Equipment and Precautions for Firefighters**
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.
6. ACCIDENTAL RELEASE MEASURES

Personal Precautions
Remove all sources of ignition. Avoid contact with the skin and the eyes. Use nitrile or neoprene gloves if necessary. Wear boots, gloves and protective suit when handling large spills. Ensure adequate ventilation. If personal exposure levels cannot be maintained below accepted exposure limits, NIOSH/MSHA approved respiratory protection should be worn. A combination organic vapor and high efficiency filter cartridge is recommended.

Methods for Containment
Prevent further leakage or spillage if safe to do so. Dike to collect large liquid spills.

Methods for Clean-up
Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).

Other Information
Report spills as required to the appropriate authorities.

7. HANDLING AND STORAGE

Handling
Avoid contact with eyes. Keep in a well ventilated place. Do not puncture, crush or incinerate containers.

Storage
Keep container tightly closed in a dry and well ventilated place. Keep away from direct sunlight. Keep away from heat and sources of ignition.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Guidelines
This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

Engineering Controls
Use in well ventilated area. If user operations generate an oil mist, use process enclosures, local exhaust ventilation or other engineering controls to control airborne levels below the recommended mineral oil mist exposure limits (ACGIH TLV TWA: 5 mg/m³; ACGIH TLV STEL: 10 mg/m³; OSHA PEL TWA: 5 mg/m³).

Eye/face Protection
Safety glasses with side-shields.

Skin Protection
Long sleeved clothing. Wear protective gloves/clothing. Use nitrile or neoprene gloves if necessary. Do not wear rings, watches and other jewelry when working with lubricants or metalworking fluids.

Respiratory Protection
If personal exposure levels cannot be maintained below accepted exposure limits, NIOSH/MSHA approved respiratory protection should be worn. A combination organic vapor and high efficiency filter cartridge is recommended.

General Hygiene Considerations
Handle in accordance with good industrial hygiene and safety practice.

11. TOXICOLOGICAL INFORMATION

Toxicity of this complete mixture has not been evaluated. If information is available on any of the hazardous components of the mixture, it is presented in this section. If no information appears in this section, there is no toxicological information available for any of the components of the mixture.

Acute Toxicity

LD50 Oral: > 5000 mg/kg (rat, predicted based on data on components).
LD50 Dermal: > 2000 mg/kg (rabbit, predicted based on data on components).

The table below indicates toxicological information for specific ingredients indicated. If no table appears, no toxicological information was found.

**Irritation**
May cause eye and skin irritation. Based on data on components.

**Corrosivity**
Not expected to be corrosive. Based on data on components.

**Sensitization**
May cause sensitization in susceptible persons.

**Chronic Toxicity**
No information available.

**Carcinogenicity**
This product contains no ingredients with a concentration of 0.1% or more which are known to be carcinogenic.

**Ecotoxicity**
Ecotoxicity and biodegradability of this complete mixture have not been evaluated. Consequently, this material should be kept out of sewage and drainage systems and all bodies of water and should not be considered readily biodegradable. If information is available on any of the individual components listed in Section 2, it will appear in a table below.

Definitions

EC50 - Effective Concentration (Concentration of a compound where 50% of the expected effect is observed.)
LC50 - Lethal Concentration (The concentration in water that will kill 50% of the test animals within a specific period of time, usually 96 hours.)
LD50 - Lethal Dose (The single dose that will kill 50% of the test animals by any route other than inhalation such as by ingestion or skin contact.)
OEL - Occupational Exposure Limit
PEL - Permissible Exposure Limits
STEL - Short Term Exposure Limit
TLV - Threshold Limit Value
TWA - Time Weighted Average
TWAEV - Time Weighted Average Exposure Value

Preparation Date 10-23-2008  Revision Date  Revision Number 0

The information provided on this MSDS is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guide for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered as a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process, unless specified in the text.
